Tangerang, Indonesia

Informatics Engineering student at Mercu Buana University with a strong interest in technology and innovation. Possesses foundational knowledge in data science, machine learning, and artificial intelligence. Highly motivated to gain practical experience through internships, collaborative projects, and real-world problem solving. Fluent in both Indonesian and English, enabling effective communication in both local and international environments. Eager to continuously grow as an IT professional and contribute to teams focused on technology and innovation.

Education Level

Universitas Mercu Buana - DKI Jakarta, Indonesia <i>Bachelor of Informatics Engineering, 3.62/4.00</i>	Sep 2023 - Mar 2027 (Expected)
--	--------------------------------

Experience

PT Lippo General Insurance Tbk - Kota Tangerang <i>Business Intelligence Engineer Internship</i>	Apr 2026 - Present
--	--------------------

- Collaborated with stakeholders to gather reporting requirements, analyze business needs, and deliver data solutions through SQL queries, dashboards, and automated reports.
- Developed and maintained Python-based ETL pipelines to automate data extraction, transformation, and loading into BigQuery.
- Optimized SQL and BigQuery queries to improve data retrieval performance for policy and claims analysis.
- Developed interactive dashboards using Power BI and Metabase to monitor policy issuance, renewals, and claims performance.
- Performed data validation and cleansing activities to ensure data accuracy, consistency, and reliability across reporting datasets.
- Investigated and resolved data discrepancies between source systems and reporting datasets to improve reporting accuracy.
- Conducted ad-hoc data analysis and reporting to support business operations and stakeholder decision-making.

Informatics Engineering Student Association (HiMTI) - DKI Jakarta, Indonesia <i>Head of Internal Project Control Subdivision – PSDM Division</i>	Oct 2025 - Present
--	--------------------

- Controlled and monitored the implementation of internal division programs to ensure alignment with timelines and targets.
- Developed work plans, activity timelines, and evaluation indicators for internal PSDM programs.
- Conducted periodic evaluations of members' performance and participation.
- Prepared monitoring and evaluation reports as part of the division's accountability and documentation.
- Coordinated with the Head of Division and other subdivisions to ensure program synchronization and effective collaboration.

Professional Training

Intermediate Data Scientist Scholarship Awardee - Indonesia

Sep 2025 - Mar 2026

IDCamp x Dicoding Indonesia (2025)

- Introduction to Artificial Intelligence
- Data Science Fundamentals
- Structured Query Language (SQL) Fundamentals
- Python Programming for Data Science
- Machine Learning for Beginners
- Fundamental Data Analysis

SKILLS

- **Hard Skills:** Python, Data Analysis, Pandas, NumPy, Scikit-learn, Microsoft Excel, Google BigQuery, SQL, Metabase
- **Soft Skills:** Communication , Teamwork, Problem solving, Fast learner, Time management, Responsibility, Leadership, Adaptability
